

CSU GLOBAL

Master of

BUSINESS ADMINISTRATION

CSU Global's online Master of Business Administration (MBA) provides professionals with the principles and skills to make informed business decisions. Students develop leadership, strategy, innovation, globalization, systems thinking, decision making, and ethics skills through problem-based learning (case studies, applied simulations). Students can customize their learning path by choosing from one of 19 different focus areas including specializations such as finance, project management, and cybersecurity.

Key Takeaways

- Coordinate strategic goals through effective stewardship of resources, application of leadership principles, and development of human capital.
- Devise strategies that improve operations, revenue, quality, and performance.
- Apply analytical skills for solving organizational challenges.
- Assess financial performance measures.
- Utilize quantitative and qualitative analysis tools for assessing business scenarios.
- Evaluate situations from a systems thinking perspective to formulate actionable business plans.
- Navigate the cultural complexities of a global business environment.

Career Opportunities

An MBA can help advance your career to the next level. This program will prepare you for career advancement as a:

- Senior Analyst
- Financial Manager
- Operations Manager
- Management Analyst

Top Product Management-Related Job Titles

Salary information based on Lightcast data from O*NET Online by the U.S. Department of Labor, Employment and Training Administration.

ADMISSION REQUIREMENTS

Bachelor's degree from an institution that is accredited by an approved institutional accrediting agency with a cumulative undergraduate GPA of 3.00 or higher. Students who don't have a previous business-related degree from an ACBSP-accredited program must complete BUS500 before completing other program requirements. Provisionally-admitted students whose undergraduate degrees do not meet the requirements will complete RES500 or RES501 rather than BUS500.
