

# CSU GLOBAL

## Master of Science Degree in

# HEALTHCARE ADMINISTRATION

The Master of Healthcare Administration program prepares students for leadership roles in the healthcare sector. It integrates essential elements, including leadership skills, core-competencies, analytical capabilities, a global perspective, and evidence-based management tools. Students expand their knowledge of the U.S. healthcare delivery system, healthcare policies, legal aspects, and industry challenges. The program emphasizes crucial areas like healthcare quality, population health, human resources, financial management, information technology systems, operations management, change management, innovation, and strategic planning.

### Key Takeaways

- Employ a systematic decision-making approach to evaluate healthcare organizational challenges.
- Prioritize essential skills for effectively managing, developing, and motivating healthcare organizations to adapt to changing needs.
- Create a strategic plan for a healthcare enterprise.
- Critically evaluate the policies, procedures, laws, ethics, and quality management standards across various healthcare options.
- Evaluate the relationship between management, organizational leadership, analytical reasoning, operations, human resources, finance, marketing, and strategic planning in the healthcare sector.

### Career Opportunities

Our students who study healthcare administration typically go into these careers:

- **Medical and Health Services Manager**
- **Clinical Data Manager**
- **Compliance Manager**
- **Regulatory Affairs Manager**

# CSU GLOBAL

The Master of Healthcare Administration program consists of eight 3-credit major courses and four 3-credit specialization courses in an area of interest to the student. The core courses are listed in the suggested order of completion:

| COURSE NUMBER AND TITLE                                      |
|--|
| HCM500 The U.S. Healthcare System                            |
| HCM502 Organizational Behavior Human Resources in Healthcare |
| HCM515 Health Law and Ethics                                 |
| HCM520 Quality and Performance Improvement in Healthcare     |
| HCM542 Healthcare Operations Management                      |
| HCM565 Healthcare Finance                                    |
| HCM570 Healthcare Information Systems                        |
| HCM580 Capstone: Strategic Management in Healthcare          |

Note: Some Master of Healthcare Administration students may also be required to take RES501 as part of their program if they have an undergraduate GPA below 3.00. In this case, the degree is 39 credits.

HCM595 is an optional course that will provide students with practical experience in management organizations. This course may not be available in all states; see the State Specific Authorization Policy under Admissions Policies.
