CSU Global and **YOU**

Your future **starts here.**

We'd love to welcome you to CSU Global, where our **Bachelor of Science in Information Technology** equips you with software engineering and network analysis skills, prepares you for industry certifications, and allows you to specialize in cybersecurity, cloud computing, or web application development.

Since 2007, we have offered a 100% online learning experience using our state-of-the-art learning platform for adult learners who need to fit school around other commitments. Flexibility is built into everything we do.

Our curriculum, designed in collaboration with industry leaders, offers both theoretical knowledge and practical skills that align with today's job market demands. We provide you with a personal success counselor, 1-on-1 tutoring, career coaching, round-the-clock access to tech support, library services, and the writing center. **Whatever you need, we go there.**

We look forward to welcoming you to CSU Global and supporting you on your journey to becoming a skilled, knowledgeable, and ethical information technology professional.

Warmly,

Jerid Counterman, MS
Assistant Vice President,
